Career Objective

Passionate and detail-oriented aspiring Software Developer with hands-on experience in front-end development, responsive web applications, and real-time projects using HTML, CSS, JavaScript, and Python. Strong problem-solving abilities with a keen interest in building user-friendly digital solutions.

Education

Intermediate , St. Joseph's Junior College Mariapuram 62.3%	2020 - 2022 Kadapa
SSC , Sri Madhusudhana H.S School 93%	2019-2020 Kadapa

Internship / Training

Academy for Careers in Technology - By Freshworks Responsibilities / Learning: “Learned Front-end, Back-end, and Full-stack Web Development concepts.”	08/2025 – Current
--	-------------------

Skills

- Front-end Technologies: HTML, CSS, Bootstrap
- Programming Languages: Python, JavaScript
- Database: SQL
- Tools: MS Office, VS Code, MySQL Workbench
- Soft Skills : Adaptability, Teamwork, Critical Thinking
- Problem Solving

Projects / Practical Work

Student Club (https://humeranaaz397-ops.github.io/student_club/)

- Developed the Front-End of Student Club, a platform enabling students to communicate with mentors, share ideas, and access certification courses. Created student and teacher pages, building a user-friendly website that supports learning beyond textbooks and enhances knowledge.

Technology: HTML, CSS, JavaScript

Tools: VS Code, MySQL

Portfolio Website (<https://sudharshanjaggula605-droid.github.io/sudharshanportfolio/>)

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and achievements.

Technology: HTML, CSS, JavaScript

Swiggy Landing Page (https://sudharshanjaggula605-droid.github.io/project_swiggy_staticpage/)

- Built a responsive Swiggy landing page clone using HTML and CSS, demonstrating strong front-end development and layout skills. Implemented flexbox/grid for structured design and ensured cross-device compatibility.

Technology: HTML, CSS

IPL Score Tracker (https://github.com/sudharshanjaggula605-droid/Final_project.git)

- Python-based application to track and display live/recent IPL cricket match scores, team standings, and player statistics.

IPL Landing Page: (https://sudharshanjaggula605-droid.github.io/ipl_landingpage/)

- The IPL 2026 — Experience the Thrill project is a modern and responsive sports website designed to provide users with a complete digital experience of the Indian Premier League. The platform includes key features such as live match updates, team details, match schedules, points table, player statistics, and match highlights, all presented in an engaging and user-friendly interface. The website is developed using HTML5, CSS3, and JavaScript.

Type Speed Game (<https://sudharshanjaggula605-droid.github.io/typespeed-game/>)

- This project aims to develop a Typing Speed Game that allows users to practice typing by displaying random sentences and tracking their performance in real time. The application calculates key metrics such as words per minute (WPM), accuracy, time taken, and mistakes, helping users understand their typing efficiency. The website is developed using HTML5, CSS3, and JavaScript.

Certifications

Introduction to HTML Simplilearn, 2025	Introduction to CSS Simplilearn, 2025	Web Development for Beginners Simplilearn, 2025
Python Programming Coursera, 2026	Public Speaking Skills Simplilearn, 2025	Communication Skills Simplilearn, 2026
